

The Young Living Legacy

ESSENTIAL OILS ARE DEFINITELY NOT THAT LATEST FAD

Essential Oils go back to the earliest time in history...They are mentioned in the Bible and were used by the Egyptians for beauty during the time of the pyramids. Hieroglyphics have been discovered depicting the use the essential oils. Gary Young discovered essential oils in his clinic during the mid 1980's. He then traveled to Europe to study essential oils extensively. In Europe essential oils have been used for decades as perfume, beauty enhancers, and so much more.

MID 1980'S | GARY YOUNG WAS FIRST INTRODUCED TO ESSENTIAL OILS | *A lady from Europe had traveled to Gary's clinic in Chula Vista, CA. to get some help for her sister.*

Gary immediately left for Switzerland to attend a conference in Geneva where doctors were presenting their research on essential oils.

At this time, essential oils where almost unheard of in the U.S. -- At that time oils in the U.S. were mainly perfume oils.

TRAVELING ABROAD | *Gary traveled to France several times a year with just a backpack and a sleeping bag, prepared for anything. He was determined to learn everything he could about the distillation of essential oils.*

1986 | GARY IS INVITED BY FRENCH DOCTORS TO COME TO FRANCE | *Dr. Bernard Jensen was doing research on patients in France with essential oils. Gary returned home with 13 oils and began experimenting to discover their usage and application. The world was not ready for his discoveries. People laughed at him, slandered him, and told him it was impossible to do what he was doing. But, the few people who had been using Gary's new essential oil infused products began to spread the word, and more people wanted what he had.*

Gary decided to sell his research facility and start his own marketing company. A passion was growing inside and he believed he could help more people this way.

1986 | GARY CREATED SUPPLEMENTS INFUSED WITH ESSENTIAL OILS | *Some of these first supplements are still in the Young Living® product line today! ComforTone, I-C-P and Juva Tone were just a few of the original supplements.*

LATE 1980'S | GARY YOUNG FOUNDED YOUNG LIVING | *In a small office in Spokane, WA. The company that would later become Young Living® Essential Oils was founded and the journey began...Now, nearly 30 years down the road, thousands of lives have been forever changed because of Gary Young and Young Living Essential Oils.*

Let's continue the Legacy!
